# ABOUT US

GetIt4Free Meme Coin (GITF), where laughter is perpetual, and wealth is an enjoyable byproduct. In the realm of cryptocurrencies, we often find ourselves immersed in solemnity, but not here. GITF was conceived with the intent of infusing the crypto sphere with humor and meme culture while creating genuine avenues for financial growth. This community-driven, meme-inspired project is poised to make you smile and prosper, all without cost.

# VISION MISSION

Our vision for GetIt4Free Meme Coin is both simple and audacious: to meld the potential of memes and blockchain into a coin capable of genuinely enriching you, devoid of the need for substantial investments. We envision a future where:

- A vibrant and inclusive community centered around humor and crypto thrives.
- Wealth redistribution through free token distribution becomes a catalyst for financial empowerment.
- Meme-inspired microtransactions bring everyday enjoyment to individuals worldwide

Our mission is to turn this vision into a reality. We are on an exhilarating journey, led by humor and memes, to:

- Cultivate a welcoming and lively community where humor and cryptocurrency intersect.
- Advocate for wealth redistribution by freely distributing tokens to our community members.
- Enable meme-inspired microtransactions, making every day a source of joy and potential financial growth.

# UNIQUE Features

## *HUMOR-INFUSED WEALTH*

GITF transcends traditional investments. It leverages humor and meme culture to generate value, making every transaction a delightful experience.

## *FREE DISTRIBUTION*

Unlike the majority of cryptocurrencies, GITF is freely distributed among our community members. We are committed to wealth redistribution without financial barriers.

## *MEME PARTNERSHIP*

We actively pursue collaborations with meme creators, influencers, and platforms to amplify our reach and accentuate the uniqueness of our meme coin.

## *NFT-MEME COLLECTIBLES*

GITF introduces NFT meme collectibles, allowing you to own iconic memes as digital assets.

# TOKENOMICS

GetIt4free Coin (GITF) boasts a total supply of 4 Billion tokens on the ETH and BSC network—an astronomical number designed to cater to meme enthusiasts. Here's how we're distributing the fun:

**Initial Distribution:** A significant portion is allocated directly to our community members, ensuring widespread ownership.

**Development and Marketing:** Tokens are earmarked for continuous project development and meme marketing campaigns.

**Liquidity Pool Allocation:** Tokens have been allocated to liquidity pools to maintain trading liquidity and stability.

**Team and Advisors:** Our dedicated team and advisors play a pivotal role in our success and receive a fair share for their unwavering commitment.

**Token Allocation/Distribution:**

- Initial Distribution (Airdrop) 8%
- Development and Marketing 7%
- Liquidity Pool 80%
- Future CEX listing 5%

One of the beauties of GetIt4free Meme Coin is that you don't need to purchase it; you continuously receive it for free by being part of our meme-loving community.

Introduction:

The GIFT Token is not confined to a single blockchain; it's a dynamic and versatile asset that operates on both the Ethereum (ETH) and Binance Smart Chain (BSC) networks. This dual-chain functionality opens up a world of possibilities and advantages for GIFT holders
